

# QUALITY POLICY

## MACHINA LABS

---

At Machina Labs, our commitment is to produce conforming aerospace and defense parts defined by exceptional quality, dependable on-time delivery, and a relentless pursuit of improvement. We are dedicated to meeting or exceeding customer requirements and applicable regulatory standards while continually strengthening the effectiveness of our processes and quality management system. We understand that fulfilling this commitment demands the collective effort of our entire organization, and we foster a culture where every team member is empowered and accountable for upholding the highest standards of quality at every stage of our operations.

## QUALITY OBJECTIVES

### Internal:

- Maintain a high standard of on-time delivery
- Achieve and sustain a high level of overall product quality

### Customer:

- Minimize customer escapes with a goal of zero nonconforming products reaching the customer
- Maintain a high level of customer satisfaction through responsiveness and product conformance

### Suppliers:

- Ensure suppliers consistently meet quality and delivery performance expectations
